SAND FILTER NOZZLE

Product Catalogue

INTRODUCTION

Spraytech Systems (India) Pvt. Ltd. was established in the year 2000 with a clear objective of developing moulds as well as plastic components primarily for water filtration/treatment plants. Over this long period of around 22 years, we have achieved very good experience and quality improvement in our products and our products are used by reputed companies who are pioneers in water treatment business. We have achieved continued progress in our business, only because of our quality perfection and timely delivery of products exactly as per the specifications and requirements of our clients.

We are into the manufacturing of plastic components used in Industrial, Commercial & Domestic Water Treatment Plants.

Facility :

We have fully automatic CNC micro processor based injection & blow moulding machines, super beads & blow moulding machine.

Quality Control :

For quality control, we have latest measuring equipment like digital vernier caliper, micro meter, gauges, fixers, big size surface table, etc. to ensure 100% quality control of all our products. We have in-house tool room facility with latest up-to-date infrastructure.

We have skilled manpower with wide experience for manufacturing quality products. We are committed to comply with contractual requirements of our customers. We use materials after getting test certificates from suppliers. The Quality Policy is communicated and understood within the organization by all.

OUR PRODUCTS :

We produce various types of Industrial Strainers, Filters (Nozzles), etc. such as Disc Type, Slot Type, Single Decker/Double Decker Strainers, Umbrella/Mushroom Type, Buttons etc. used in DM Plants, Water Treatment Plants, ETP, RO Units, etc. We have pall rings used in tower packaging of different sizes such as 38x38 mm, 50x50 mm, Unions of 20mm, 32mm, 50mm, 63mm, PP balls which are available in various sizes.

We also manufacture Fittings, Cylinder Caps, Straight Tube Connector, Bend Tube Connectors Fittings & Filter Housings of 1 liter, 6.5 liters & 18 liters capacity which can be used as Pre Filter Housings, Mini Softeners, Mini DM Plants, etc. Our vision is to become a world class manufacturing source for precision plastics components and mould for world renowned companies engaged in water treatment, water purification and other industries.

- Multipurpose and very strong
- Wide range of slots
- Wide set of threads and stems
- Wide filtering area

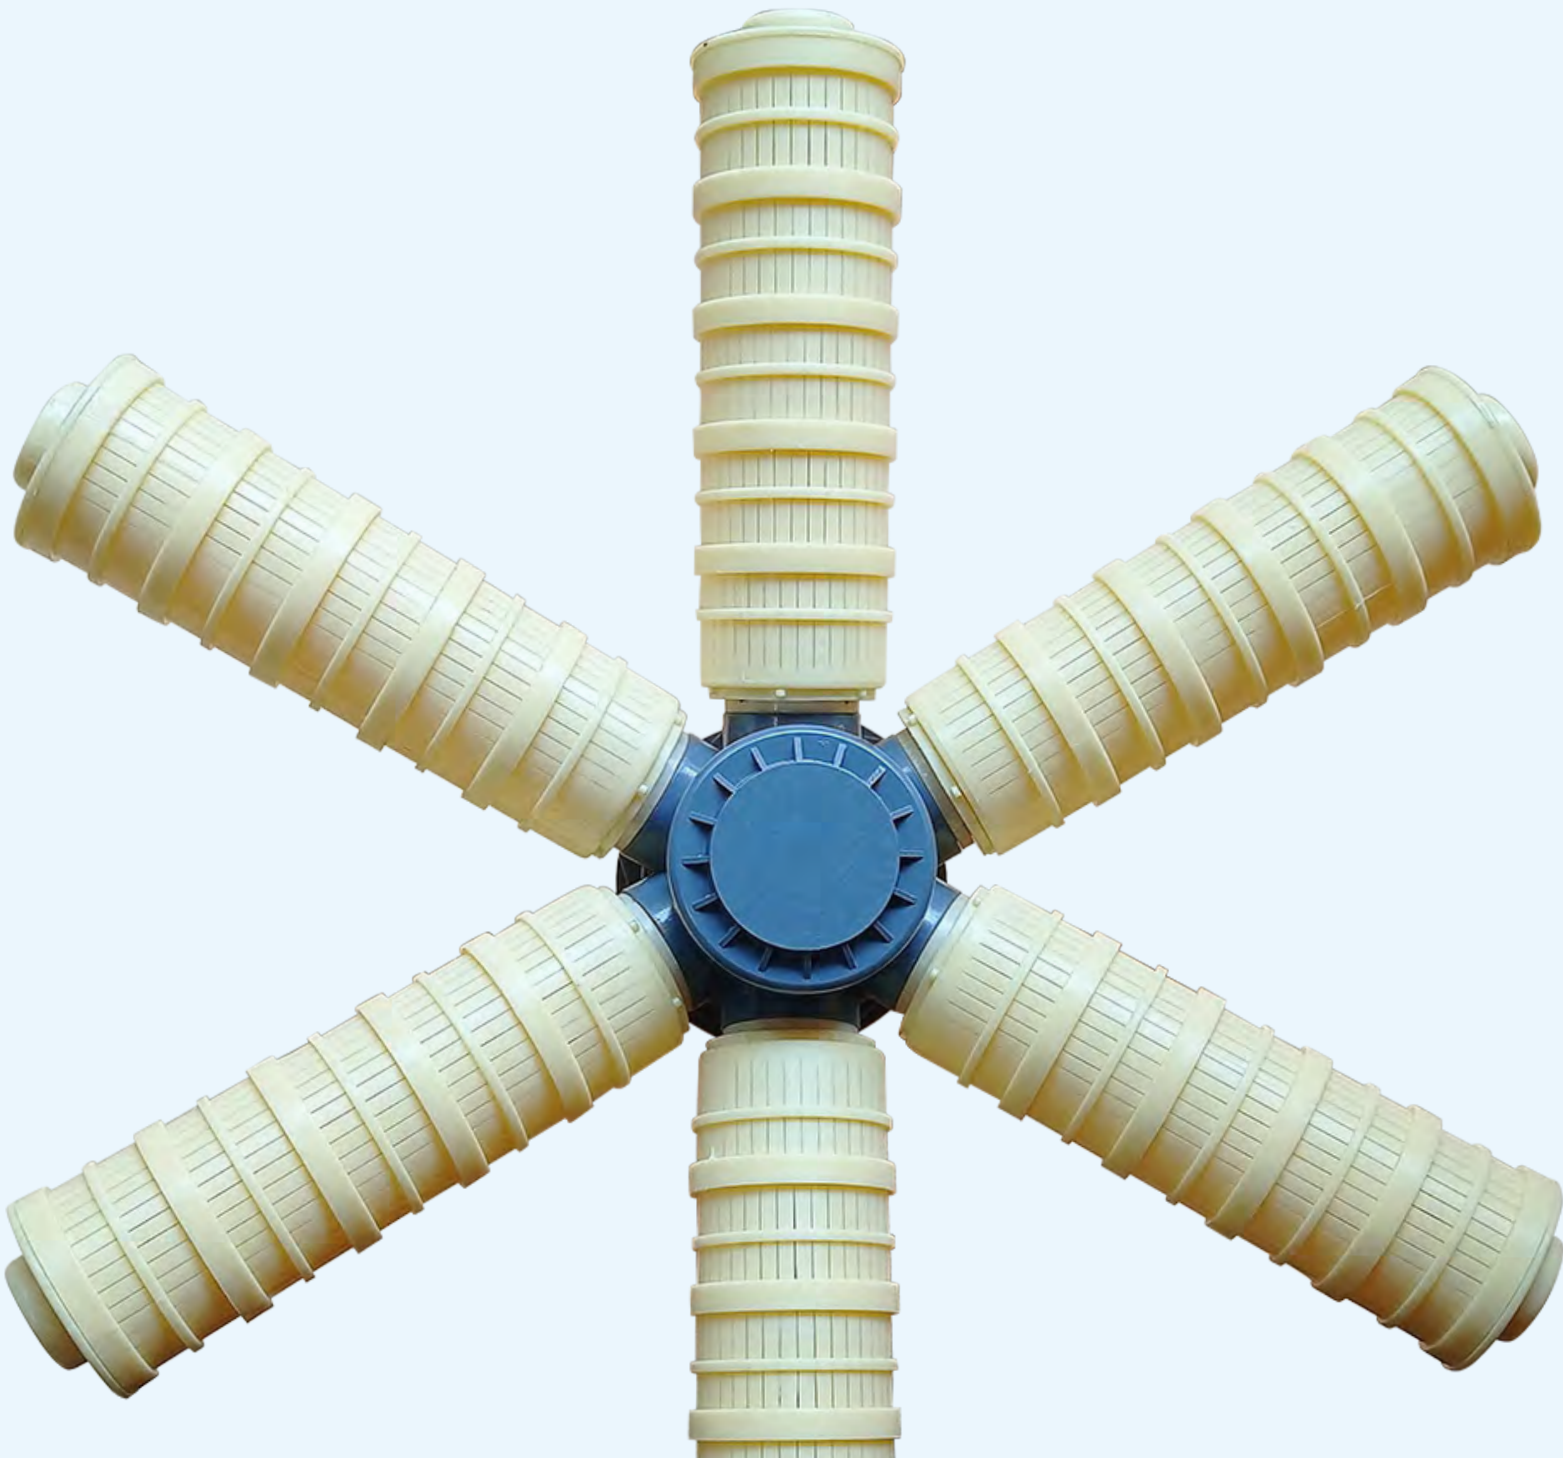

Material

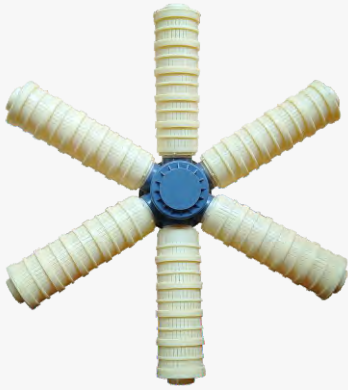

Discover our range of plastic and pp nozzles: this range of products is entirely made in virgin Polypropylene, is the best choice for you water treatments needs. Feel free to contact us and we'll provide detailed information about our products, or simply look at our catalogue to find the product that match your needs.

The Nozzle has two parts mainly Filter & Stem. Filter usually has slots for restricting the resin or gravel from passing through along with water. The flow through Nozzle is decided No. of slots, slot width & length. The Filter nozzle is generally fitted to the under drain bed with the threaded stem inserted in to the holes where it will be bolted to the plate with washers & Nuts.

- Suitable for sand and anthracite filters
- Filter nozzle with vertical slots
- Easily cleaned by backwash
- Wide set of threads and stems
- Inexpensive
